About MGM University

MGM University was established by the Mahatma Gandhi Mission (MGM) Trust in 2019 with a vision to provide value-based, research-driven and experiential education that will transform the youth into professionally competent and socially responsible citizens. Approved by the Government of Maharashtra under MGM University Act, 2019 (Maharashtra Act No. XXVI of 2019) and accorded the 2(f) status by UGC, India, MGM University is the first University in Marathwada to fully implement the New National Education Policy (NEP 2020). The University offers over 315 programs in a spectrum of streams ranging from Engineering and Technology, Management and Commerce, Basic and Applied Sciences to Social Sciences and Humanities, Design, Performing Arts and Interdisciplinary Studies. The educational facilities, research infrastructure and sports amenities at MGM University are at par with the top-notch universities in the country.

About IOSS

One of the premier educational institutions in social sciences in the region, MGM University's Institute of Social Sciences prepares students for a career in the development sector. It enhances their understanding of and sensitivity towards different socio-economic and psychological problems and enables them to address the issues with various social intervention techniques. Empowered with sound theoretical knowledge and robust practical experience, the students not only create a brighter future for themselves but also for society.

About Department of Economics

The Department of Economics offers research-oriented and skill-based programs in economics. Focused on developing employability in students, the Department provides research internships along with practical programs in applied statistics, mathematics, and econometrics. The NEP-2020 framework allows students to choose, along with core subjects, discipline-specific and interdisciplinary elective courses as well as open electives from different institutes within the university. Upon completion of the program, the students receive a Major degree in Economics with a minor degree in one of her field of choice, such as Data Analytics or filmmaking. Pedagogies emphasizing active student participation are extensively employed in the teaching-learning process. The department also facilitates opportunities for rural immersions, industry visits, and academic discourses.
